Mrs. Erna Hemmrich Walter Schoeneck Were Wed Saturday

Two well known Mokena people were united in marriage Saturday afternoon, November 26 at two o'clock in the "Little Brown Church in the Vale" at Nashua, Iowa. They were Mrs. Erna Hemmrich and Mr. Walter G. Schoeneck.

They, in company with Mr. and Mrs. George Kreml, also of Mokena, motored to Nashua last Friday and returned home Sunday.

Mrs. Hemmrich wore a street length forest green silk dress, with green accessories, and a red rose corsage. Their attendants were Mr. and Mrs. Kreml. The pastor, Rev. F. J. Hanscom, officiated at the single ring ceremony.

At the close of the service, the pastor's wife sang, "This is My Wedding Day." She accompanied herself on the organ. The wedding party left for Cedar Rapids where the wedding dinner was enjoyed.

Sunday afternoon a wedding celebration was held in the home of Mr. and Mrs. Robert J. Schlaacks. Guests beside the bridal party, were: Mr. and Mrs. John Pollock of Oak Park, Mr. and Mrs. Jack Schaub and John J. Krohn of Chicago. This group enjoyed a turkey dinner at Schrage's restaurant later in the evening. This was also the 19th wedding anniversary of Mr. and Mrs. George Kreml.

Mr. and Mrs. Schoeneck are living in the Guindon home on Wolf road. The groom is a carpenter contractor.

Prizes Awarded to Employees of Public Service Company

Four employees of the Public Service Company of Northern Illinois were awarded prizes totaling \$475, for the best 1949 suggestions submitted under the Company's suggestion system at a conference of the utilities officials held Tuesday at the Palmer House, Chicago.

The year-end prizes were in addition to previous cash awards totaling \$730, given to the winners.

Britton I. Budd, president, presented a top award of \$200, to Charles M. Hoffer, Joliet, of the company's general meter shop in Maywood for suggesting an easier and time saving method of checking electric meters for grounded conditions.

Second prize winner was Frank Phillips, Highwood, who was awarded \$150, for his suggestion which advanced a more efficient method of immobilizing electric water heater switches without damage.

Joseph Ernst, Blue Island, won third place and was awarded \$100, for his idea that speeded up exchange of gas range parts with vendors.

A. R. Faford of the utility's electric operating department in Kankakee was given a \$25 award for submitting the largest number of accepted suggestions during the year.

The utility's suggestion system, founded in 1911 and one of the oldest in the country, attracted approximately 1,400 suggestions from employees during 1949. Of this number 476 were accepted and cash awards approximated \$5,000.00.

Legion Notes

Frankfort, Ill.

Bobzin-Swinford Post 1098

The next regular meeting of the Auxiliary unit of the Bobzin-Swinford Post 1098 will be Thursday evening, December 8, in the Frankfort village hall. Meeting will start at 8 p.m.

The Auxiliary voted at their last meeting to give \$60 to the department rehabilitation work carried on by the Auxiliary of the American Legion.

The local unit of the Auxiliary is having each member make cookies for the veterans who are living at Oak Forest and at Orland Park. The members of the Auxiliary are claiming victory in their race for one hundred per cent of their membership for 1950 in a contest with the Legion to see who will give the annual Christmas party. The Auxiliary claim only three members to go, whereas the Legion Post has nine members to go. The auxiliary will also have a 25c Christmas gift exchange.

The Auxiliary also signed up three new members in the current campaign for membership. They are: Mrs. Walter Mark, Mrs. Fred Weitendorf and Miss Faye June Oetter.

Tickets for Chicago Railroad fair movies that are to be given in Mokena tomorrow night, December 2 are selling good, and it has been advised for those planning to attend, to get to the school in good time so as to get a good seat.

Miss Lillian Frances Buckingham, of Chicago, has been well received wherever she has shown these colored movies as well as the other movies which she presents.

Many have stated they saw the fair but want to see how it appears in movie pictures and are therefore planning to attend. Others did not attend the fair and are quite anxious to see it via movies.

Miss Buckingham has traveled extensively in Canada, Alaska, throughout this country, West Indies, South and Central America and Europe. It is a privilege to have her come to Mokena and bring her experiences in travelogues and pictures.

The affair is being sponsored by the Bible class of the Mokena Methodist church and the proceeds are to go to the building fund.

And for your enjoyment at the close of the pictures, coffee, cake and candy will be available.

Frankfort-N. L. 4-H Club Members Named in Int'l Finals

Burton Barr of Manhattan was awarded a blue ribbon on his Junior Angus calf in the Junior Livestock Show, Saturday, November 26. Burton is one of the outstanding club members in Will County and a member of the Willing Wilton Workers 4-H club. He is also sectional vice-president for section 10 in FFA.

He is a very outstanding member of the Peotone FFA chapter of which Glenn Shippy, vocational agricultural instructor, is the adviser. When asked what Burton feeds his calf, he replied, "The old reliable, cotton seed oil meal, linseed oil meal and soy bean oil meal." His calf was very well trained and handled excellently in the show ring. Burton is one of the three club members for Will County who survived the weeding out which was held Thanksgiving Day at the Stock Yard. The other members whose calves survived to the finals were: Bennie Welter of the Homer Husky Hustlers, and George Archibald of the Frankfort New Lenox 4-H club.

Under The Cross Of Malta

November 28

The regular Post meeting scheduled for Thursday, Nov. 24 was not held on account of it being Thanksgiving Day. However all Post members can look forward to the next meeting December 8, at Hatch hall at 8 p.m. Comrades of the Post, you can be there. We have much important business to discuss including arrangements for our annual Christmas party.

Reporting on the progress of our new building, we can tell you that practically all outside work is completed except grading of the ground around the building, and Walt Yunker will take care of that job soon. The heating plant is partially in and will be fired up so we can work with some comfort. Work will commence soon laying the hardwood floor, several carpenters and others have offered to help, but we need more help, so if any one wants to come down to the building and give a hand we will appreciate same. We will have heat and plenty of light. Phil Hacker says he will soon be on the job installing the stairways and we believe him. Summing up everything, we can state that the building is progressing satisfactorily.—Glenn C. Peterson, Publicity Officer.

Lockhart-Townsend Wedding Dec. 10

Mr. and Mrs. George Lockhart of New Lenox announce the engagement and approaching marriage of their daughter Violet Marie to Mr. Edward Townsend, son of Mr. and Mrs. William Townsend of Wilton Center.

The wedding will take place Saturday afternoon, December 10 in the New Lenox Methodist church at four o'clock. Rev. Ralph Miller, pastor, will officiate.

All friends and relatives are invited to attend the wedding and reception which will be held in the church parlors following the ceremony.

XMAS CARDS NEED 2c STAMPS

Postmaster Margaret O'Brien at Mokena, opened the Yuletide season officially this week by issuing the annual appeal for early mailing of Christmas greeting cards and gift parcels.

Christmas packages for distant states should be mailed by December 5 and all parcel post on its way by Dec. 10.

Christmas cards sent third class mail this year must bear a 2c postage stamp. This rate went into effect Jan. 1. The old rate for Third class was 1½c. Cards smaller than 4 by 3 inches or bigger than 9 by 12 or any odd shape must be sent A1 cards sent first class are given first class at the 3c postage rate, priority for delivery.

Beginning Dec. 8 the post office will remain open on Thursday afternoons up to and including the last Thursday in December.

Postmaster O'Brien expects the heaviest Yuletide mail in the history of the post office but everything will be delivered by Christmas if the public cooperates whole heartedly.

Attempt to Wreck Wabash Train Failed

What was probably aimed to wreck the Wabash midnight Flyer No. 117, last week failed of its point.

A large timber had been placed across the tracks near 119th street in Palos Park one night last week and the Flyer, going south hit it, but fortunately did no damage. The train stopped at Orland Park for a few minutes and continued on its way.

"Rumor has it that a switch had been spiked also a few nights later, but this has not been verified.

Mokena Church Group To Give Dance

The Y. P. League of St. John's Evangelical church, Mokena, will sponsor another of its fine community dances next Saturday evening at the Mokena School Gymnasium.

"Reindeer Rumpus" is the theme given to the dance and the decorations will be in keeping with it. The dance is given for all ages and for the general participation which will encourage young people in the pursuit of wholesome recreation in their home community.

WILL ATTEND OPERA

Mr. John J. Balaz will start his annual pilgrimage to Chicago Saturday night when he will take as his guest his niece, Ginger Nelson of Chicago, to the opera.

Mr. Balaz has had the same seat each season for the past 17 years and the two opera lovers will see "Cavaler Rusticana" and "Pagliacchi".

BAKE AND FANCY WORK SALE

The WSCS of the Methodist church in Mokena will hold a bake and fancy work sale in Cooper and Hostert garage in Mokena Saturday afternoon December 3 starting at two o'clock.

FOR DUTCH CHRISTMAS—Hollander Peter Kien, 4, points to the address of an orphanage in Holland, for which this crate of candy is destined. His 6-year-old sister Marja looks carefully at the names on the crate. Miss Elsa Gross, Bronx member of the Open House Y-Teen Club of the YWCA, holds other packages to be wrapped. Teen-agers of the YWCA are sending "Chocolate for Christmas" overseas for undernourished youngsters in 18 countries.

Local Business Man Is Good Neighbor And Puts it to Work

By THE OFFICE BOY

Well sir, I suppose you wonder what's become of me lately, but it seems that the boss seemed to think as a writer I was mixed up with a pole cat, so he put me baling papers and sweeping up the place.

Well, anyway, Monday I was mooching around Mokena trying to ferret out some news (and that's a job, I'll tell you), and I skated along in front of the bank on the ice when I saw something that seemed to me mighty queer.

There right in front of the bank was a man with blonde hair and a white apron, with a pail of hot water and a broom swabbing off the front of the bank.

I says, "hey, mister, are you the new janitor here?" And he said, "run along buster, can't you see that I'm busy?" But I didn't mooch along—I just watched him while he was scrubbing and rubbing in great shape.

After a while, I said, "Say, you aren't working for the bank, you're a business man, aren't you?" And he said, "Why don't you go peddle your News-Bulletins. This is no business of yours."

Well, after that I started to inquire around as I thought he had lost a bet or something. But now I have the story:

It seems that this local business man had been going to the bank to make deposits, and noticing the guy crawling up the front of the building, had spawped in it, or maybe starlings. I don't know which—and they bothered him.

So he decided to take things into his own hands and scare the birds away from the bank, being a neighbor of theirs and practicing the "good neighbor policy" (which is usually practiced before asking the neighbor for a loan—local or international) and decided to get rid of the obnoxious birds.

I haven't got any reports yet on the success of his venture, for there are so many sparrows there right now that I can't begin to count them. Anyway, the bank has a nice bright appearance, and this business man is going to make his deposits with a smile on his face.

I understand that the next day he asked the bank for a loan—so now I see why he was scrubbing early Monday afternoon.

P. S.: If anyone wants to phone me I will tell you the man's name!

OPEN HOUSE TO HONOR MRS. HELEN ROWLEY

Mrs. Adella Sprout will hold open house in her home on Maple road Thursday afternoon, "December 8, from two to five o'clock in honor of the 55th birthday of her mother, Mrs. Helen Rowley of Homer township.

All relatives and friends are cordially invited.

BAKE SALE

The Busy Homemakers Home Bureau unit of Frankfort, in cooperation with the Frankfort Mokena unit, will hold a bake sale December 3, starting at 1:30 o'clock in the garage of the Frankfort Motor and Equipment Co., formerly Heuser's garage. The committee in charge is composed of Mrs. Charles Schult and Mrs. Rudolph Souise.

New Lenox Mayor Launches Drive for Christmas Seals

Carleton Coe, mayor of New Lenox, purchased the first bond in the Seal sale drive in New Lenox this year.

The money derived from this drive is used for the operation of the Mobile unit which gives free chest x-rays to anyone in Will County, in case-finding program.

This program is very important as half the people who have tuberculosis do not know it, hence it is easy to see why the free x-ray is so important.

Funds from the Seal sale drive also support the rehabilitation and health education program of the Tuberculosis association. This program has dropped tuberculosis from first to seventh place as a killer in the nation, but it is still No. one killer between the ages of 16 and 40. There is an annual death toll of 50,000 a year in the United States. So let's support this drive and help to stamp out this dread disease.—Mrs. L. E. Frey, captain of Seal sale drive in New Lenox.

NAMED TO NATIONAL HONOR SOCIETY

Four Mokena girls have been elected to the National Honor Society. They are: Ursula Thiel, Jean Luplow, Juanita Bruesser and Anita Geuther. They are all seniors at Joliet Township high school and will be formally taken into the society on Wednesday, Dec. 14.

MRS. MABLE HART TO BE FETED AT OPEN HOUSE IN MOKENA SUN.

To honor a former New Lenox citizen who has gained success in the theatrical world in Hollywood, Calif., and who is here on a short vacation, Mrs. Margaret Semmler will hold Open House in her home in Mokena Sunday afternoon, December 4, starting at three o'clock.

The honored guest will be Mrs. Mabel Hart, who was born in New Lenox—well, many years ago, and who is remembered and known to her schoolmates and early friends as Mable (Ollie) Walters. She attended the village school, and was graduated from its eighth grade and entered the Joliet township high school, 50 years ago. Her father conducted a store in the village and many remember buying candy, as children, in the Walters store.

Readers of The News-Bulletin will recall pictures that were published a few years ago showing "Ollie" Walters among the pupils of the old New Lenox school, and among whom also was the late William Semmler. It was through sheer accident the latter two became acquainted with each other's whereabouts, and a pleasant correspondence resulted.

Mrs. Hart is staying with her son Jimmy Hart in Joliet before returning to Hollywood, and she is looking forward to Sunday and hoping to see as many of her old time New Lenox friends as possible, and also those who have not met her.

There are no invitations being issued, but Mrs. Semmler is, in this way, extending a cordial invitation to all New Lenox people who knew Ollie Walters Hart or those of the present time, who would like to meet her, to call at the Semmler home Sunday afternoon. There is no time limit. Also an invitation is extended to anyone in the area, and to the many ex-Servicemen who during World War II attended the Ken Murray's "Black Outs" in Hollywood and saw "The Elder Lovlies" and who might like to meet Mrs. Hart in person, one of the "Elder Lovlies" to attend the Open House.

Back of the Show Windows

What does a retail store's show window stand for? First of all, of course, it is designed to interest you in buying goods. If you like what you see, and consider the price fair, you'll probably become a customer. If not, you will move on to another store that meets your needs better.

Beyond that, however, the show window is about as good a visual example of how this country works as we can find. We pride ourselves, and justly, on our magnificent system of mass production, which has given us a vast abundance of goods of all kinds, which provides much of our employment, and which has helped raise our living standards far beyond that of any other major nation.

However, mass production would not be a success, or even a possibility, without mass distribution. The goods from the factories must be moved, swiftly, efficiently, and economically, into the hands of the people who will use them. American retailing is superbly geared to perform that job. It believes that the sound way to do business is to turn over a large volume of merchandise at a small unit profit. And what keeps that principle always at work is aggressive competition between stores of all kinds and sizes.

Visitors from abroad, and especially the few who come here from the countries within the Soviet orbit, are always amazed and disbelieving when they see a typical American shopping center—whether it be Fifth Avenue or Main Street. They are so used to a subsistence standard of living and an economy of scarcity at home, that they believe it to be a universal state of affairs. Free enterprise, as exemplified by the shop windows, shows them how wrong they are.

Prophets
False & True

Lesson for December 4, 1949

GOD is neither silent nor dead. He has his spokesmen today. We hear myriads of voices—preachers, teachers, editors, columnists, poets and politicians, all professing to tell us the truth. When a man claims to speak in the name of truth, is there any way by which his claim can be tested? It is an old problem.

Away back in Bible times every prophet had his rivals, the false Dr. Foreman prophets. The false were far more numerous, they often had immense prestige and government subsidies besides. How was the common man to tell the true prophets from the false?

Notion of Man or Word of God?

ONE DIFFERENCE between the true and false prophets, of course, was that the false ones passed out their own ideas, while the true ones gave voice to the ideas of God. Some of the false prophets even dug down into what we now call the subconscious, and told their dreams as if they meant something.

The false prophets of our own times are still the people who draw on their own minds, even on their day-dreams, to furnish messages for the people. The gypsy dream-books are still with us. Astrologers flourish, and not always on the side streets. All sorts of queer cults profess to tell us what is coming next and what we ought to do.

Before we take a modern "prophet" seriously we should ask: Is what he is saying his own idea or God's idea? In this 20th century after Christ, it should be easier to know God's ideas are than it was 27 centuries ago in Jeremiah's time.

For now that Christ has come, we can safely check all the self-styled prophets with the message and the mind of Christ.

Is the voice of the people the voice of God?

THE FALSE PROPHETS were always popular, the true ones seldom. Mere unpopularity does not prove a man a true prophet; but you may be sure that if a man says only what people like to hear, always tickling the ears and feeding the pride of his listeners, he is no true spokesman for God.

Not that the true prophet is always insulting his hearers. The Lord's prophets often speak comforting and welcome words, to be sure. But a steady outpouring of soothing-syrup is not what we would expect from a genuine prophet.

Man is often most proud when he is most wrong; and then God has to sweep the man down. Don't take too seriously the men who merely reinforce your prejudices and shore up your pride; they are more likely fake prophets than true. The voice of the people is not always the will of God.

Time is the Test

That great prophet Moses (Deut. 18) had already given a practical test of a true prophet: Does what he says turn out to be true? Can he really see into tomorrow? Alas, we may have to wait until tomorrow to find out for sure; but tomorrow always comes, and when it comes, the prophets of today will be shown up for what they are, true or false. Time is the test. Not, Is it likely?

Truth and Right are Twins
PERHAPS the worst feature of the false prophets who were Jeremiah's competitors was their real immorality. "Their course is evil and their might is not right," he said (23:10, American translation). "They commit adultery and walk in lies, they strengthen the hands of evildoers so that no one turns from his evil ways" (v. 14).

God's spokesman can never also speak for the enemies of God. Whenever you hear anyone talking as if we could now get "beyond good and evil," or as if the Ten Commandments were something we had outgrown, then you may know you are listening to a false prophet.

There are no new commandments but the one which sums up all of them: Love one another. Prophets of hate, prophets of dissension, of lust, these may be speaking for themselves or for the devil—but not for God.

Rural Music and
Drama Festival
Jan. 4 in Joliet

Because of conflicts, it has been necessary to change the date for the Will County Rural Music and Drama Festival and it has now been set for Wednesday evening, January 4 at the Farragut School in Joliet.

It is expected that the country Rural Youth organization will be in charge of this county-wide activity. Participants shall be residents of the community they represent and should have a primary interest in the rural life of Will County. Entries by any community group in one or more of the following features in the county festival:

1. One Act Plays with three or more characters and not more than 40 minutes long.
2. Men's Quartets, single or double, singing two numbers.
3. Women's Trios, single or double, singing two numbers.
4. Instrumental Ensembles, three to ten instrumentalists, playing two numbers.
5. Mixed Quartets single or double, singing two numbers.

Participants should be residents of the community they represent and should have a primary interest in rural life, not necessarily Home Bureau members. School groups as such (i.e. High School quartet, trio, orchestra, or play) are not eligible.

At a recent meeting of the Executive Committee of the 1950 Illinois Farm Sports Festival, several changes were made which will be of considerable interest to Will County folks.

It was decided that the open class square dance, open class folk dance, rural youth square dance, rural youth folk dance and square dance band competition on the state level will be held at the University of Illinois February 7, during the first part of Farm and Home Week.

This means that these events will probably be held as a part of the county Music and Drama Festival January 4. All folks interested in entering any of these events should start rehearsals.

Sports Festival participation points will be given in each of these above listed five events. An individual may participate only one dance team. Open class teams are to consist of individuals other than Rural Youth or 4H members.

Mrs. Van Der Vries
Named Chairman
Of Campaign

Mrs. Bernice T. Van der Vries, Illinois state representative from the seventh district, today was named chairman of the Women's division of the 1949 campaign of the Illinois Chapter of the Arthritis and Rheumatism Foundation, according to James J. Nance, general chairman of the drive.

Mrs. Van der Vries, a member of the Illinois House of Representatives since 1934, is chairman of the Illinois Commission on Inter-Governmental Cooperation, a member of the board of directors of the Community Fund, a member of the Winnetka League of Women Voters and of the Daughters of the American Revolution. She lives at 439 Maple ave., Winnetka, Ill.

The drive, which opens November 15, has as its objective the support of clinical testing of the new "wonder drugs" ACTH and Compound E, or Cortisone, in hospitals and other institutions in Chicago and throughout the state as well as the maintenance of a program of basic research, public and medical education in arthritis and the rheumatic diseases, and the co-ordination and expansion of existing facilities for care and treatment of sufferers.

The goal is \$265,000. Foundation figures show that about 500,000 victims of arthritis, gout and rheumatic diseases are residents of Illinois. The national total of sufferers is estimated at more than 7,500,000 of whom more than a million are almost completely disabled, and all are in more or less constant pain.

GRADES 2-3

Mary Joy Leedom (teacher)

Considerable interest has been shown by members of the third grade in the social studies unit on planting, gathering, threshing and using wheat. Some interesting and worthwhile pictures were drawn by the children, depicting various methods used for the mentioned process.

ROCK OF AGES BONDED GUARANTEED

Fulfilling a present requirement with a Rock of Ages marker is a wise first step in a lifelong memorial program—for Rock of Ages monuments and memorial markers can be matched exactly through the years to come.

Consult us today on your problem in the choice of monument or marker as the beginning of a memorial plan.

E. WUNDERLICH GRANITE CO., 624-660 N. Hickory St., Joliet, Illinois

es at different times during the development of civilization.

We like our Thanksgiving borders of pumpkins, leaves, and fat turkeys. Each child in both grades had a part in these decorations.

Our new reading charts are "now-up". Each child is endeavoring to beat his first quarter record on the new chart.

Some of the children brought colorful fall pictures which we have mounted and placed on our back board.

Our science corner is always growing. Only this week we had some very interesting shells added to it.

During Book Week, we appointed our own student librarian who checks books in and out under our teacher's supervision. Our librarian is Billy Sayers.

The original Thanksgiving drawings done by the second graders were quite well done and the story told by each child about his picture was enjoyed by all of us, even by the third graders who were busy with other work.

We are sorry that Roland Newton is absent again due to improper healing of his broken ankle. We shall be happy to have him back in school.

3rd AND 4th GRADES Mrs. Shewski

Visitors in the third and fourth grade classroom during American Education Week were Mrs. George

SAVING THE HARVEST—Farmers pour grain into one of the aluminum bins set up by the government at Enterprise, Iowa, to provide storage for the unexpectedly large 1949 grain harvest. About 26,000 bins were erected with an average capacity of 3250 bushels each to help meet the harvest emergency.

Rinke, Mrs. Gerrit Swart, Mrs. Winton Hamilton, Mrs. Albert Reyelts, and Mrs. Evert Benson. They watched the actual classroom procedure. Examples of the children's work with primary colors and art posters were shown to them.

The third and fourth grades have won the PTA room award for the months of September and October. The award is a cash prize of one dollar and a silver trophy.

A geographical museum has been started in the classroom. It contains collections of raw materials, important manufactured products, samples of wood and stone, and products of the sea. It is the purpose of the museum to help the student acquire first hand knowledge of various materials by actual observation. The material has been collected by the third and fourth grades.

A unit in creative art has been started in the classroom. The first project was an experiment in the unusual to produce a startling effect for Halloween. We wanted to get away from the traditional black cats and pumpkins which are associated with Halloween. The class worked on unusual faces with pointed chins and noses, enlarged spreading ears, and oddly shaped teeth. The result was a variety of colorful Halloween horrors.

Our work in connection with Thanksgiving has been quite different. Each child planned a Pilgrim's general appearance and personality, and gave him a name. The trend was to get away from the stiff lifeless figures that are usually pictured as Pilgrims. No two faces were alike. The pictures are realistic and full of expression and creativeness.

5-6 GRADES

We have organized a Hobby club. The following were elected as officers: President, Paul Landahl; vice president, Marilyn Cooper; secretary, Wesley Schultz.

At our first meeting James Cooper told us about his hobby, trains. His exhibit is on display now. Each one of us will display his hobby for a week. Marilyn Boleman is planning her exhibit for our next meeting.

Mrs. George Steele, Mrs. Ralph Knakmuhs, Mrs. Paul Cowhig, Mrs. Albert Reyelts and Mrs. Frank McHenry visited our room during American Education week.

The past weeks we were busy preparing our transportation unit and exhibit. We are now studying people of other lands. George Butler is preparing a paper and report on the American cowboy.

At the close of our three week Good Breakfast contest the Cardinals had the most points. We have all learned the value of a

good breakfast.

Twelve new reading circle books and twelve additional books have been added to our library. We are working on our book reports now.

In the 6th grade Paul Landahl won first prize in the PTA poster contest. James Cooper, Marilyn Boleman, Christ Jones, Violet Teske, Marilyn Cooper and Ralph Stahl also contributed posters that were very good.

We have a spelling contest in our room each week. The sixth grade are two points ahead of the fifth.

UPPER GRADES 7-8

The eighth grade watched the United Nations Assembly meeting being held in Flushing Meadows, New York, over Mrs. F. Rauch's television. The class voted the hour was well spent and we came back feeling we had gained more of an insight in today's political problems.

Our room is fortunate to have a growing library. Our two librarians Billy Weber and LaVerne Sands, are proving to the students their capabilities in keeping abreast of the pressing demands for "books and more books to read". With wise foresight, Mrs. Cappel purchased for our library 24 new books, including travel, fiction and non fiction reading.

Doris Schuldt, Ruth Ann Stanger and Cecil Ambuehl have helped to beautify our room by bringing potted plants.

Practicing for our Christmas play "Heigh-ho Holly" by Catherine Allison Christie has started in earnest. We are looking forward to a number of enjoyable hours in doing so.

India, being studied by the eighth

graders, is proving to be an interesting subject. We are making maps and doing writeups on the various subjects pertaining to the country.

Several of the pupils in the seventh grade were surprised to learn that Africa is an important country in producing diamonds. We also learned the people living around the Nile river were much further advanced in civilization than in other parts of Africa.

In our seventh grade history we have been making a list of grievances that our colonies had against England, and in connection studying the "Declaration of Independence."

In the poster contest sponsored by the PTA, in the seventh grade, Juanita Burgess ranked first, Charlotte Gilmore second and in the eighth grade, Patricia Perley, first; Dalbert Smie, second and Barbara Geuther and Patricia Reid third.

We have formed committees to act on the Student Participation council. We feel the adventure will further our interests in history, geography, and science. The following are acting as our eighth grade counselors for this second quarter:

Bulletin Board: Jack Newton, chairman, Charlotte Armin, Billy Weber, LaVerne Sands.

Maps: Mary Cooney, chairman, Dalbert Smie.

Library: Frederick Rauch, chairman, Gene Newton.

Correction of Papers: Patricia Reid, chairman, Doris Schuldt.

Words to know: Dorothy Buehn, chairman, Cecil Ambuehl, Bruce

Scarth, Frederick Shunko, Magazines: Shelby Darnell, chairman, Billy Schultz, Patricia Perley, Barbara Geuther.

Mrs. Roy Newton was a visitor in our room during American Education week.

William Kampe, Zeina Kampe, and Minnie Jordan attended the international stock show Saturday afternoon and evening in Chicago.

NEW FEATURES ON 1950 FORDS

A smoother flow of power in the V8's and quieter operation in both V8 and 6 cylinder engines distinguish the improved power plant for the new 1950 Ford passenger cars introduced by Ford dealers last week.

"By taking advantage of the latest development in engine design we also have still further increased oil economy and added to the life of these engines," Harold T. Youngren, vice president, engineering said. "They are the quietest and smoothest running engines we have ever produced."

Included among the engine improvements in the 1950 Fords are:

1. New camshaft timing gear made of laminated composition material which replaces the former aluminum gear, giving much quieter operation.
2. New autothermic type pistons which control expansion and contraction and eliminate piston slap.
3. New camshaft, designed for

quieter operation, featuring a longer opening and closing ramp which eliminates tappet noises.

4. Increased oil economy resulting from: a, addition of an oil squirt hole in the connecting rods which provide instant lubrication of the cylinder walls after a cold start, b. New cylinder wall finish with better oil control, c, rubber seal ring on intake valve stem guide of the V8 engine which prevents excessive oil consumption through leakage of oil past the valve guide. The new rubber seal rings help oil economy from the first mile driven.

5. New three bladed fan on the V8 engine replacing the former four bladed fan and a reduction of fan speed to 9/10th of the engine speed. Use of new narrow fan belts and rearrangement of drive so each of the two belts drives only three pulleys. The new fan, while providing the same cooling for the engine, is much quieter than the former model, and the reduction in fan speed eliminates fan "roar."

6. Improved oil bath air cleaner with cork insulation which deadens metallic engine noises.

The new timing gears in both the V8 and 6 cylinder engines are

made of laminated cloth impregnated with bakelite resins and moulded under extreme pressure.

Another important improvement in the 1950 Ford engine is the use of better insulated high tension wires to the spark plugs. An improved arrangement of these wires also prevents cross-firing.

A feature of the new autothermic type pistons is the steel strut which is cast into the aluminum piston and which controls expansion so the piston cannot become tight when heated or loose when cold. The pistons eliminate engine slap, produce a great deal less friction and add to the life of the engine.

Where the former pistons had to be fitted with a certain amount of play to prevent scoring, the new pistons are being fitted as close as .0005 of an inch clearance. The new piston also has its pin offset one-sixteenth of an inch toward the thrust side as an aid in eliminating piston noise.

Improved performance of the engine with the new pistons installed provides an even smoother flow of power than in previous models.

Other quality features of the 1950 Ford V8 engine include: hardened

valve seat inserts for exhaust valves; duplex water pump and series flow cooling, insuring against hot spots; extra large capacity oil pump and accessible vertical drive distributor incorporating full vacuum control of the ignition.

Films of State Fair Free to Schools Etc.

A new film carrying sights and sounds of the great Illinois State Fair is now ready for free use by schools, clubs, and other groups.

Some of the world's finest livestock, the most modern agricultural machinery, and prize winning fruits, grains and handicraft are shown in this new motion picture. Included also are many of the big exhibition's most popular entertainment features—exciting finishes of harness horse races, hurtling automobiles, the competitions of veterans' day, and the color and beauty of musical revues.

Requests for use of the film should be sent to the Division of Reports, Room 406, Statehouse, Springfield.

NOT UP TO STANDARD
A young British doctor, who served in the Royal Air Force during the war and was afterwards in practice in England, has moved to California. He has taken out his first citizenship papers, and he will practice in that state after going through a year of internship which is required by law. And the reason

he gave for this abrupt change in his life is that, under England's socialized medical system, "it was physically impossible for me to be a good doctor."

His experience was typical. He was treating some 3200 patients, under the panel system, and the government had assigned him a quota of 4,000. He said, "there were days when I saw 20 patients in an hour at the office, and one day I made 36 house calls." Commenting on this the Portland Oregonian said editorially, "Obviously, there was not time for careful diagnosis, though many patients had very minor ailments, and some were hypochondriacs encouraged by 'free medicine'—that is, tax-supported care—to make unnecessary calls. There was no time for research and study. The young doctor knew that his work was not up to recognized medical standards in this country."

Here is the great tragedy of socialized medicine. It is enormously costly—a dangerously large part of Britain's total governmental budget is going to pay for it. It discourages and disheartens medical men, and especially the younger ones who will be the future custodians of the peoples' health. And, to top it all off, it cannot help but cause a dangerous decline in the standards of care and practice, and close the door on research and preventive medicine. These are among the powerful reasons behind the refusal of Congress to swallow the Administration's compulsory government medical insurance scheme.

Medicines From Animals
The meat packers of the country who slaughter hogs are being urged by the American Meat Institute to save the pituitary glands. These glands are used in preparing a new hormone for the control of arthritis.

The hormone, which has a long and unpronounceable name, is considered to be one of the most important contributions to mankind in the relief of severe pain. Over 40 hospitals and university laboratories are now conducting clinical research with the product, which is being developed and manufactured in the laboratories of one of the larger meat packing concerns. Because of production difficulties, the drug has not yet been placed on sale, and the entire present limited production is being delivered without charge to medical research centers. An idea of the production problem can be gained from the fact that the glands from 25,000 hogs are required to produce a single ounce of the hormone.

This is not the first time the meat industry has made an important contribution to the physical well being of ill people. Diabetes, for example, can be successfully controlled only with insulin, and prior to the discovery of that drug the disease was deadly. Insulin can only be produced from glands of animals, which are saved by the meat packers. In the case of the new hormone, the packers will again do all in their power to make it more widely available.

Diabetes, for example, can be successfully controlled only with insulin, and prior to the discovery of that drug the disease was deadly. Insulin can only be produced from glands of animals, which are saved by the meat packers. In the case of the new hormone, the packers will again do all in their power to make it more widely available.

Meivin Ballou is building an addition to his house located on Greenland avenue, south of 145th St.

Mr. and Mrs. Howard Creer gave a Thanksgiving dinner for members of the Creer family. Guests were: Mr. and Mrs. Howard Spiess and children of Evergreen Park; Mr. and Mrs. Willard Creer and children; Mr. and Mrs. George Ponder and children; and Owen, Clarence, and Arthur Creer (whose mother, Mrs. James E. Creer, is still in Hot Springs, Ark.) Following the dinner the grown-ups watched television while the children enjoyed games.

The Recreation club held a square dance in the school gym last Saturday evening. Wally Martin, who called, gave excellent instructions before starting each new routine, and the young people who came with Wally demonstrated the steps, so that it was very easy for the beginners to follow thru. The group reports a good time was had by all.

The new home being built on 145th street, near West avenue, is that of Mr. and Mrs. Harold Shroats. Instead of Allen Shroats as incorrectly reported last week.

Guests of Mr. and Mrs. George Sayers for Thanksgiving dinner were: Mr. and Mrs. Robert Doak and grandson John Doak; and Homer Austin, all of Joliet; also Mr. and Mrs. Foster Myrick and Miss Clara Myrick.

Mr. and Mrs. Fred Yunker had members of their immediate family for dinner on Thanksgiving day.

The Community Sewing club will hold a fancy goods and bake sale at Putz's Service station beginning at 12:00 noon, Wednesday, Dec. 7

The Lester Sayers family entertained Mr. and Mrs. Robert Roth and family last Sunday.

Mr. and Mrs. Elmer Johnson spent Thanksgiving with their son, Harry and his wife and family in Chicago.

Mrs. Mabel Prust of Chicago, entertained at Thanksgiving dinner for Mr. and Mrs. Robert Roth and family, Mr. and Mrs. Lester Sayers and family, and Mr. and Mrs. Stewart Creighton of Milwaukee. Mrs. Prust is Mrs. Roth's mother.

Mrs. J. H. Weinland's mother, Mrs. D. W. Hebble from Terre Haute, Ind., spent the Thanksgiving holiday with the Weinlands.

Local college students home for the holidays were, Larry Smith, a Freshman at Normal university; Gordon Cooper, a senior; Virgil Butler, a junior; Joyce Homering a senior at the U. of Ill., George (Sonny) Gee, Jr., a sophomore at Bradley and Wm. H. Blew Jr., a Junior at Purdue university.

Dr. and Mrs. Wesley J. Lindquist recently celebrated their twenty-fifth wedding anniversary with a party for their close friends and relatives. The table was decorated with an attractively arranged centerpiece of large and small chrysanthemums, and abundant with dainty sandwiches and torte cake from a caterer. The evening was spent watching television, playing cards and visiting. The couple were the recipients of many lovely gifts.

Mr. and Mrs. Forrest J. Miller left Sunday for a vacation in California. They plan to go the northern route and visit Washington first. In California they will visit Mr. Miller's sister in San Diego, a cousin in Los Angeles and San Francisco. They plan to cover about 6,000 miles on their trip.

Mr. and Mrs. Walter Kay spent Thanksgiving day with her brother, Eugene Peters, his wife, and son Tommy, in Oak Park. The Peters' entertained the entire family, including their mother, and two sisters and their families, also of Oak Park, at Thanksgiving dinner.

Mr. and Mrs. John Barton had members of her family for Thanksgiving dinner. Guests included Mrs. J. F. Schmaedeke, Mr. and Mrs. Orville Schmaedeke and family, Mr. and Mrs. Win Nash, and Mr. and Mrs. Ernest J. Wood.

Guests of Mr. and Mrs. Merrill Cooper for the holiday were her mother, Mrs. A. C. Splitter and Virginia.

Mr. S. V. Smith returned to work Monday after being absent for about ten days from a foot injury he received on the job.

Mr. and Mrs. A. S. MacKenzie and daughter Judy spent Thanksgiving with Mrs. MacKenzie's sister, Mrs. John Bach, in Clinton, Iowa.

Mr. and Mrs. Raymond Myrick entertained her family at Thanksgiving dinner. Out of town guests were: Mr. and Mrs. Robert Koubene of Batavia, their daughter Loraine and her house guest, Miss

Mahatabelle Smith, a college chum from Virginia; Mr. and Mrs. Frank H. Tyzzer of Geneva; Mr. and Mrs. Marvin Pierce and family of Wheaton; and Mr. and Mrs. Almer Anderson of Batavia.

Mr. and Mrs. Robert Ebeling and family were dinner guests of Mr. and Mrs. R. E. Boughan, of Beverly, on Thanksgiving.

Mrs. Thomas Wheeler suffered a fall in her home last week. There are no broken bones, but she pulled some ligaments loose in her leg and has to remain as quiet as possible for some time.

Republican Party Seek Nat'l Opinions

Guy George Gabrielson, Chairman of the Republican National committee, has asked for a nation wide expression of opinion with respect to a possible restatement of

Republican principles in advance of the 1950 Congressional campaign. He is seeking the views of those with no official position in the Party as well as the office holders and those holding official position in the Party organization.

A letter written by Gabrielson to all Republican governors, State chairmen and vice chairmen, County chairmen and vice chairmen and members of the Republican National Committee asks two questions:

1. Should there be a restatement of Party principles at this time, and
2. If so, what should the restatement contain.

Gabrielson acted pursuant to a resolution adopted by the National Committee at its meeting in Washington, August 4, 1949, authorizing appointment of a special committee including Republican Senators and members of the House, to consider drafting a statement of Party principles.

In the letter sent out to Party leaders, Gabrielson declared that, "the over all objective is to obtain expressions of opinion resting on

the broadest base possible." He suggested that State chairmen and County chairmen might wish to call special meetings of their respective Committees to consider recommendations. He asked that all recommendations be submitted to National Headquarters by December 21st, if possible, and in any event prior to the convening of the next session of Congress in Jan.

The recommendations will be submitted to the special Committee authorized by the August 4th resolution of the National Committee which special Committee, Gabrielson said, will be appointed in the very near future.

New Lenox and Orland Companies Display New Trucks

Completely re-designed and re-engineered trucks from International Harvester's new L line were introduced Wednesday at the show rooms of Batson Equipment, New Lenox and the J. F. Schmiede Implement company at Orland Park.

The new International truck line consists of 37 basic truck chassis models designed to handle any type of hauling job, according to the above dealers.

The heavy-duty engineered L line presented a completely new design in motor trucks, at once apparent from the massive front end to the smartly styled cab.

Advanced Design, Engineering Outstanding advances in design and engineering include: New chassis dimension, improved engine accessibility and short overall lengths while maintaining or increasing load carrying lengths; new, improved valve in head International truck series engines; newly designed cab offering more roominess, and visibility and complete restyling that blends a new modern truck streamlining with extreme practicality.

The new trucks, introduced after years of exhaustive testing and research, required the greatest expenditure of any new models in International history. More than \$30,000,000 was spent for the vast production changeover involving the widespread revamping of facilities, layouts and assembly lines in the company's Port Wayne and Indianapolis, Ind., and Springfield, Ohio plants.

The new L line is spearheaded by four classifications of four wheel model trucks, and the new International line further features new

LONG WAY TO GO—Making a bicycle trip from Quebec, Canada, to California, Joseph Camerlengo, 18, of Somerville, Mass., and Charles A. Mead, 18, of Norwell, Mass., make a stop at the White House in Washington. On hand to greet them is White House doorkeeper William Simmons.

multi-stop units. The "West Coast" trucks include two highway and four off-highway vehicles.

Better maneuverability results from the shorter turning radius of the shorter wheelbases, as well as from the widened axle treads. The turning angle on practically all models throughout the line has been increased to a minimum of 37 degrees, for both popular and standard tire sizes.

The new Silver Diamond engine, used in the company's light and medium duty trucks, is a valve in head, six cylinder power plant built in two sizes, the 220 cubic inch displacement size developing 100 horsepower, and the 240 cubic inch power plant which develops 108 horsepower.

The L line offers a complete selection of transmissions to meet every hauling requirement.

Wider, sturdier rear axles, engineered to handle any job, are available in the new models. Hypoid axles are introduced in the L line.

New brighter colors are offered in the L line. Standard colors include Harvester red, Adirondack green, Apache yellow and Arizona blue. Optional colors include Salt River Sand, Door County green, Black Canyon black, Valencia Orange, Palomino cream and Chesapeake gray.

New Fords Come In 11 New Colors

The smart new 1950 Ford convertibles now on display in dealers' showrooms offers a choice of 11 new exterior paint colors including four metallic finishes.

Two of the new colors are exclusive in the convertible line. They are Sportsman green—a beautiful chartreuse which comes with a chartreuse and black leather trim or a combination of black leather and Bedford cord, and Matador red metallic—a medium red color trimmed with black and red leather or with the Bedford cord combination.

In addition to the new colors, the 1950 Ford convertibles feature an improved top mechanism, a non-sag front seat spring, new sponge rubber front seat cushion which provides added comfort and a longer, improved regulator handle permitting the raising and lowering of the quarter windows with greater ease.

An inclined foot rest under the front seat adds to the comfort of rear seat passengers. There is also improved heating due to the larger passage for air from the heater.

Other colors in the 1950 Ford convertible line are: Dover (light) gray; Palisade (light) green; Hawthorne (dark) green metallic; Osage (grayish) green metallic; Sheridan (dark) blue; Cambridge maroon metallic; black and Sunland beige.

Like all the 1950 Fords, the new convertibles are powered with the new, improved V-8 and 6-cylinder engines which are notable for their smoother flow of power and quieter operation. Additional insulation and sound deadener in doors, panels and floor add to the silent operation of the new convertibles.

If the thyroid gland is removed from a cow, her milk flow will decrease about 75 percent.

BARN WORK made EASY

Jamesway barn equipment will save you time and hard work and will boost your profits. Jamesway Carriers make barn cleaning a boy's job. Jamesway stalls give your cows year 'round pasture comfort. And drinking cups alone will pay for complete Jamesway equipment! They save herding cows out-of-doors to drink from an uncovered, germ-breeding open tank in freezing weather and increase milk yield 1 to 3 lbs per cow per day! We are your Jamesway dealer. Stop in and see our complete line of profit-making Jamesway equipment.
